PLUS

EGCg

Strongest and abundant catechins in green tea.

- inhibit the growth, motility and invasive capacity of cancer cells and stimulate their death.

Green tea

- ⇒ facilitates diuresis.
- ⇒ useful in case of tract infections.

Curcumin

- anti-inflammatory and antibiotic effects.

Genistein

the main isoflavone contained in soy.

- ⇒ reducing the growth of blood vessels that feed tumors.
- ⇒ protective effect in the development of prostate cancer.

Green tea + Curcuma + Vitamin E

- protect cells from oxidative-stress.

Zinc

- normal reproduction and fertility.
