GASTROESOPHAGEAL DISEASES

PLUS

DESCRIPTION

Food supplements of INDIFLUX line (indiflux oral solution and indiflux sachets) are formulated to give support and relief in case of discomfort that involve gastrointestinal and esophageal tract.

They are based on:

- **Aloe Vera gel**
- **Phyllanthus Emblica L. (Emblica)**
- **Hyaluronic acid** - Indiflux oral solution formula is enriched with
- **Ginger** - to empower the functionality of the product with eupeptic and antiemetic actions

THERAPEUTIC INDICATIONS

- Emblica promotes the control of gastric acidity
- Aloe vera performs a soothing action on the digestive system
- Ginger (Indiflux oral solution) carries out an antinausea action, contributes to the normal digestive function, to the regulation of gastrointestinal motility and to the elimination of gases.
